

User Experience / User Interface Designer (m/f) for Laboratory Instruments

Ref: 2068521+ 2068461

Location: Waldbronn, Baden-Württemberg

Agilent is the premier laboratory partner for a better world. We provide life science, diagnostic and applied market laboratories worldwide with instruments, services, consumables, applications and expertise. Agilent enables customers to gain the insights they seek – so they can do what they do best: improve the world around us. Information about Agilent is available at www.agilent.com.

Responsibilities

- You work in a newly established UX/UI team and will contribute to its development within a globally established company.
- Conduct workflow analysis for instrument-focused and laboratory software applications
- Generate intuitive information architecture for the complex analytical lab workflows
- Transfer the gained insights to support our project-teams by persona, workflow models & use cases
- Develop & lead usability tests, evaluate results and use them to guide the development
- Translate your information architecture & ideas into wireframes and prototypes
- Support the development of detailed specifications for graphical user interfaces, documentation and consistent style guides for different platforms
- You will work closely with the in-house UX/UI team: contribute, discuss and guide as a creative sparring partner in the globally operating, yet central Usability & Design Center
- Some international travel required

Qualifications

- A Diploma, BA or MA degree in UX Design, UI Design, Industrial Design or equivalent
- Proven track record of experience in UX Design and/or UI Design with insights from completed projects (best from product/instrument/system-related software)
- Mastery of required software tools for UX & UI
- The ability to work in a multi-disciplined environment
- A good level of technical understanding
- You enjoy interdisciplinary teamwork, as well as self-responsible work
- You can think within complex structures, work goal-orientated and have good communication skills
- Fluent command of English language
