

Internship Industrial design

aroma_ID is offering an industrial design internship.

We are offering an internship for students of industrial design/ product design from their fourth semester within their mandatory practical semester.

Since 1999, aroma_ID has been developing designs with international companies and brands such as BRAUN, Deutsche Bahn, Schneider Pen and many more.

We offer the opportunity to work on various projects within our design team. With your personality and present research, concept, drafting and design development skills, you will have the chance to further improve these, as well as your professional and practical skills.

You should be familiar with using computers, Rhinoceros, Photoshop, InDesign and Illustrator. Furthermore model-making and putting together design drafts is required. Basic knowledge of SolidWorks, Keyshot and MS Office are desirable. Language proficiency in written and spoken English and German are needed.

Applicants with dedication and excellent attention to detail are very welcome.

The internship attracts 800€ per month (from 5 months compulsory placement, 600€ per month for shorter periods).

We look forward to receiving full applications with CV and portfolio via email to career@aroma-ID.de

Please do not hesitate to contact us if you have any queries.
