

# Internship Industrial design

aroma:id is looking for an industrial design intern to join its team in Offenbach am Main, Germany.

Since 1999, aroma:id has been developing designs with international companies and brands such as BRAUN, BSH, P&G, Deutsche Bahn, Schneider Pen and many more.

We are offering an internship for industrial design/product design students who are at least in their fourth semester and who have to complete a mandatory practical semester.

As an intern at aroma:id you will work on various projects within our design team. You will get the opportunity to apply your skills regarding design research, concept and design development and you will have the chance to gain further professional and practical knowledge.

You should be familiar with using Rhinoceros3D, Adobe Photoshop, InDesign and Illustrator. Basic knowledge of SolidWorks, Keyshot and MS Office are desirable. Furthermore basic model-making abilities and sketching skills are required. Language proficiency in written and spoken English and German are needed.

Applicants with dedication and excellent attention to detail are very welcome.

The remuneration for the internship amounts to 800€ per month (at least 5 months compulsory placement, 600€ per month for shorter periods). We look forward to receiving your applications with CV and portfolio via email to [career@aroma-id.de](mailto:career@aroma-id.de)

Please do not hesitate to contact us if you have any queries.
